

ATLANTIS

ATLAS PROJECT

Meet Responsibly at Atlantis Dubai

Do meetings in ways that are good for people and the planet

This meeting package aims to provide our clients with a bespoke event that is built on prevention, reduction, and mitigation measures to minimise the ecological impact of a meeting or event at every stage – from planning and implementation right up to the departure of guests.

Book our new MEET RESPONSIBLY Full Day Delegate Package offered at Atlantis, The Palm and Atlantis The Royal which includes:

- A single-use plastic free meeting.
- A vegan, vegetarian or sustainably sourced menu.
- Fairtrade® certified tea, coffee and sugar.
- Atlantis Artisan Filtered Water from our on-site water bottling plant.
- A Meeting Impact Statement detailing total energy and water consumption and waste recycling rate and highlights of the event's sustainability initiatives.

For every event booking this package, we will contribute 1% of the event booking value to the Atlantis Atlas Project 1 USD Contribution Programme (nett of VAT). The 1 USD Contribution Programme supports partners driving conservation and sustainability in the UAE and across the World including coral reef restoration and innovation enhancing seafood traceability.

Our team is available to tailor your event to your requirements using our Meet Responsibly checklist. When you book your Meet Responsibly event with us, as EarthCheck certified hotels, you know that we abide by the highest standards of sustainability across Atlantis Dubai.

Meeting Space

- We offer outdoor meeting and event spaces, weather permitted, to enhance the use of natural lighting and reduce energy consumption.
- Our air conditioning is controlled by a Building Management System allowing instant control of temperature in meeting space to reduce energy consumption.
- Our lighting is LED and is controlled by a Building Management System allowing instant control of light in meeting space to reduce energy consumption.
- All bathrooms are fitted with low flow water devices to maintain responsible water use.
- Electric buggies are used around the resort to reduce gas consumption and eliminate unnecessary emissions.
- A map for a mid-event stretch of the legs and the chance to see some resort highlights with a pre assigned route
- Any audio-visual equipment will be from the in-house supplier, saving on transport and helping to reduce our carbon footprint.
- Our housekeeping teams prioritise biodegradable cleaning products to minimise environmental impacts.
- Guests can use public transport to reach our venue via The Palm Jumeirah Monorail and arrive at the Palm Atlantis Monorail Station where a buggy can be arranged to transport guests to the meeting venue.
