CHENOT ESPACE
ONE&ONLY PORTONOVİ

The background is a deep blue underwater scene. Light rays (penetration of light) are visible, creating a sense of depth. There are many small, white bubbles or air pockets scattered throughout the water, particularly near the surface. The overall texture is slightly grainy, typical of underwater photography.

RIVIERA-STYLE LIVING MEETS THE SCIENCE BEHIND WELLNESS

One&Only Portonovi sits at the entrance of Boka Bay, a sheltered idyll on Montenegro's Adriatic coast. Within the resort lies Chenot Espace - a first-of-its-kind, world-leading wellness destination where you can embark on a more active, healthy and balanced life.

The coming together of One&Only and Chenot presents you with an array of experiences from tranquillity and improved health to a more energetic and sociable riviera-style lifestyle. Chenot Espace at One&Only Portonovi revolutionises resort wellbeing, featuring state-of-the-art, industry-leading treatments combined with the extraordinary level of luxury and service that One&Only is renowned for.

ALWAYS THE PIONEER

Henri Chenot, the founding father of the wellness movement, devoted his life to integrating the latest scientific advances in Western medicine and diagnostics with the best in Chinese and alternative medicine.

Today, under the leadership of Dr. George Gaitanos, Chenot continue to inspire people to live longer, healthier, more fulfilled lives. While medical advances continue to increase life expectancy, not enough attention is paid to quality of life - living better for longer. We believe in the importance of investing in our health and wellness from the earliest possible age.

THE CHENOT
METHOD®

"You need to live in harmony with yourself
to be in optimal health." Henri Chenot

The Chenot Method® is a scientific and holistic approach that promotes wellness through preventative measures and healthy lifestyle advocacy. With over 50 years of research, the Chenot Method® utilises biomarkers known as Chenot Lifestyle Biomarkers® to assess how lifestyle factors impact the ageing process.

After uncovering your current state of health, a dedicated team will personalise your treatments, diet plans, and post-programme recommendations. The success of the Chenot Method® lies in its research-driven approach to diagnostics and the seamless integration of bespoke treatments and nutritional advice to rebalance the body inside and out.

THE CHENOT LIFESTYLE BIOMARKERS®

- Vascular age (arterial stiffness assessment)
- Intoxication (minerals and heavy metals analysis)
- Oxidation (oxidative stress assessment)
- Glycation (measurement of advanced glycation end products – AGEs)
- Skin collagen thickness (ultrasound assessment)
- Bone density, muscle, subcutaneous fat, visceral fat, body liquids content (body composition analysis)
- Emotional stress (HRV analysis)
- Endurance performance (cardiorespiratory fitness assessment)
- Resting metabolic rate
- Spine, stability & strength (postural & movement assessment)
- Bio-resonance (bio-energetic check-up)

THE CHENOT DIET®

Haute gastronomy meets cutting edge science.

An essential component of the Chenot Method®, the Chenot Diet® is a pivotal intervention in your programme, promoting cell rejuvenation and resistance to disease. Informed by half a century of ongoing research, the diet is created by a talented team of creative chefs, food scientists and nutritionists to work in perfect synergy with your medical treatments.

The Chenot Diet® consists of three appetising, multi-sensory, reduced-calorie and plant-based meals a day, each precisely formulated to combine good fats, low glycaemic index carbohydrates and limited amounts of plant proteins.

This composition of food triggers the body's fasting response whilst providing ample nourishment to the cells, stimulating the senses, and avoiding the unpleasant side effects and risks posed by strict, prolonged fasts.

Our chefs ensure the highest quality and use only the finest organic ingredients, each chosen for their anti-inflammatory, antioxidant, anti-glycating properties. The Chenot Diet® is designed to be repeated not only after periods of excessive food intake and stress, but also as a periodic lifestyle intervention to mitigate many of the detrimental effects of ageing, promoting your health and improving your health span, far beyond a classic detox. This is edible science.

Medical consultations, diagnostics, therapies, treatments, and physical exercise together with your active participation and commitment will all work in synergy for optimal results.

These elements fall across the following specialisms:

- Medical Department
- Human Performance Department
- Hydrotherapy Department
- Aesthetic Department
- Sport & Fitness Department

MEDICAL DEPARTMENT

MEDICAL CONSULTATION **30 MINUTES - EUR 145**

A medical doctor will review your current health status and medical history and discuss your needs and goals. They will prescribe all the necessary treatments to detoxify your body and promote your wellbeing.

NUTRITIONAL CONSULTATION **30 MINUTES - EUR 100**

Based on anthropometric, metabolic, and diet-related data, a dietician determines your nutritional status and conducts an in-depth analysis of your daily dietary needs.

BIO-ENERGETIC CHECK-UP **30 MINUTES - EUR 150**

The diagnosis involves a hi-tech bio-energetic screening of the body's vital functions through Resonance Analysis Technology. It provides information about the energetic state of the internal organs and bodily functions in relation to defined parameters of health.

LABORATORY DIAGNOSTIC TESTS **EUR 30 - 250**

A complete series of blood or urine analysis are available, focusing in particular on inflammatory biomarkers, allergies, hormones, vitamins, free radicals, minerals, and heavy metals.

FOOD INTOLERANCE TESTS **EUR 280-330**

These tests are designed to detect food intolerances that can cause inflammation and chronic health problems.

ALL PRICES ARE IN EURO AND SUBJECT TO 10% SERVICE CHARGE.

OXIDATIVE STRESS ASSESSMENT EUR 120

An innovative diagnostic test measures the level of biological oxidation in the body against the efficacy of its own antioxidant defence systems to balance the presence of oxidised toxic compounds.

ARTERIAL STIFFNESS ASSESSMENT EUR 90

A non-invasive test that provides an accurate method for measuring arterial function and assessing vascular ageing.

MEASUREMENT OF ADVANCED GLYCATION END PRODUCTS (AGES) EUR 90

A highly technological diagnostic test that measures the accumulation of advanced glycation end products in the tissues in real time. These products play a key role in the development of age-related chronic diseases.

MINERALS AND HEAVY METALS ANALYSIS EUR 130

This revolutionary non-invasive method is used to detect the bio-availability of trace elements and heavy metals that exist within the tissues in real time. Re-mineralisation treatments and procedures are implemented to detoxify the body.

SKIN COLLAGEN THICKNESS ASSESSMENT EUR 90

A high-sensitive ultrasound method which measures the quality and quantity of the thickness of the skin and connective tissue. It provides information about the actual age of the skin but also reflects the overall condition of connective tissue which is essential for the body's integrity.

ALL PRICES ARE IN EURO AND SUBJECT TO 10% SERVICE CHARGE.

TREATMENTS

CHENOT BIO-ENERGETIC TREATMENT 30 MINUTES - EUR 90

The treatment consists of personalised bio-energetics signals administered to the body to assist the restoration of its energetic balance. It also offers a non-invasive cellular stimulation that promotes rejuvenation in cellular processes.

ACUPUNCTURE TREATMENT 50 MINUTES - EUR 145

A key component of traditional Chinese medicine most commonly used for overall wellness including stress management.

OZONE THERAPY 30 MINUTES - EUR 180

This treatment aims to strengthen the immune system and the body's defence mechanisms, providing an overall rejuvenating and anti-ageing effect. The treatment consists of enriching your own blood with ozone to fight fatigue and improve detoxification.

ALL PRICES ARE IN EURO AND SUBJECT TO 10% SERVICE CHARGE.

INTRAVENOUS NUTRIENT THERAPY

Effective doses of specially-formulated nutrient solutions are administered intravenously, consisting of antioxidants, vitamins and minerals.

INTRAVENOUS NUTRIENT THERAPY - VITAMINS

30 MINUTES - EUR 180

Administered directly into the bloodstream to support health and well-being, this vitamin IV therapy improves energy, boosts metabolism, rehydrates, and even strengthens muscles and bones.

INTRAVENOUS NUTRIENT THERAPY - GLUTATHIONE

30 MINUTES - EUR 280

Known for repairing damaged cells in your body, glutathione IV therapy supports enzyme function, tissue repair and regeneration and creating DNA.

INTRAVENOUS NUTRIENT THERAPY - VITAMINS + GLUTATHIONE

30 MINUTES - EUR 380

Combining the benefits of vitamins and glutathione the IV therapy reduces the risk of oxidative stress cell damage and improves insulin resistance.

HYDRO-COLON TREATMENT

60 MINUTES - EUR 230

This treatment consists of irrigating the large intestine (colonic irrigation) to flush out impurities and toxins from the colon, boosting energy levels and enhancing the immune system.

ALL PRICES ARE IN EURO AND SUBJECT TO 10% SERVICE CHARGE.

HUMAN PERFORMANCE DEPARTMENT

CARDIORESPIRATORY FITNESS ASSESSMENT

60 MINUTES - EUR 180

An exercise test with sophisticated equipment that analyses, breath by breath, how well the heart, arteries, veins, and lungs are able to work together to transport oxygen to the muscles.

RESTING METABOLIC RATE ASSESSMENT

30 MINUTES - EUR 150

This assessment accurately and instantaneously measures the body's energy requirements at rest. It identifies metabolism, allowing evaluation of nutrition therapies, dietary plans, and weight management.

STRESS TEST (HRV ANALYSIS) WITH HRV BIOFEEDBACK SELF-TRAINING

30 MINUTES - EUR 220

A unique test which provides information about how the body reacts to different causes of stress, mental and emotional loads. The test examines how the heart is continuously adjusted by the autonomic nervous system to meet the demands (stressors) of daily life.

HRV Biofeedback Self-Training strengthens the parasympathetic nervous system, bringing calmness and relaxation into the body and strongly boosting health and vitality.

BODY COMPOSITION ANALYSIS

30 MINUTES - EUR 130

The analysis provides precise data on soft tissues and bone composition in any part of the body, including lean and fat-tissue mass and body fluids.

ALL PRICES ARE IN EURO AND SUBJECT TO 10% SERVICE CHARGE.

**POSTURAL AND MOVEMENT WITH
STRENGTH AND BALANCE ASSESSMENT**
60 MINUTES - EUR 180

This test assesses the curvatures of the spine, the mobility of the joints, the balance and strength of the body, as well as the weak links in the muscle chains. In time, all these factors can lead to altered activity of the entire locomotive system and if left untreated as we age, it can lead to postural deformity, loss of physical performance, reduced activity, and pain.

**NEUROMUSCULAR ACTIVATION
TREATMENT**
60 MINUTES - EUR 180

Lean muscle mass naturally diminishes with age and strength training is a key component to preserve and enhance muscle mass at any stage of life, with important implications in a person's functional ability. This treatment assesses maximum muscular forces, symmetry, strength, endurance, and balance skills with high precision measuring systems.

WHOLE-BODY CRYOTHERAPY TREATMENT
AT -110°C
EUR 90

This treatment is pleasantly refreshing, psychologically enlightening, performance-enhancing, and pain-relieving. It helps improve your recovery, sleep, and is a very effective treatment for the reduction of chronic inflammatory diseases, leaving your skin glowing.

**NEURO-ACOUSTIC DEEP RELAXATION
TREATMENT**
30 MINUTES - EUR 30
60 MINUTES - EUR 60

A neuroscience technology that triggers deep relaxation and recovery in the brain. It uses neurochemistry and auditory signals to take the nervous system out of stress mode and put it into parasympathetic system dominance, which brings deep relaxation and calmness to the body.

ALL PRICES ARE IN EURO AND SUBJECT TO 10% SERVICE CHARGE.

HYDRO-THERAPY DEPARTMENT

HYDRO-AROMATHERAPY 20 MINUTES - EUR 80

Type of hydro-massage combining variations in the water temperature and pressure, with the thermodynamic effect of plant extracts added through essential oils, causing the dilation and constriction of the capillaries.

This action stimulates toxins and removes fat deposits from the skin tissue, combating the effects of skin ageing by favouring spontaneous cell regeneration, improving skin appearance and overall peripheral blood and lymphatic circulation.

PHYTO-MUD AND HYDRO-JET TREATMENT 30 MINUTES - EUR 90

The treatment involves the application of a body wrap that consists of a mixture of white or green clay, enriched with minerals, microalgae, and pure essential oils.

It drains, detoxifies, and revitalises the body eliminating physical/muscular and psychological/stress tension. Followed by a pressure-jet, which targets body meridians, restoring energy and vitality to the body, and increasing the metabolic rate.

ALL PRICES ARE IN EURO AND SUBJECT TO 10% SERVICE CHARGE.

AESTHETIC DEPARTMENT
