

LA DAME DE PIC

DUBAÏ

LIVRE DE CAVE

This selection of wines is a book of stories. Stories written together with the winegrowers who have been with our house for several generations.

The river that waters the Pic house is the *Rhône*. From mountain pastures to the Mediterranean, the Rhône has multiple identities, and the vines that it has watered since Roman times have names that have accompanied the Pic's cuisine, just as their winegrowers have followed them since the Auberge du Pin.

This is why Rhône wines have a prominent place in this book.

The Rhône is also a crossroads of cultures.

It teaches us to be open to other territories and gives us a daily appetite for discovery. This is why it is also important for us to serve and honour the great terroirs of different countries, as well as to communicate the admiration we have for the work of their producers, materialized in the tasting.

We have no limits or borders: we travel, we taste, and we bring to your table. During visits with producers, we focus on the story and intention behind each product, a story that we pass on to you.

This concerns wines, but also all the other drinks of our houses: teas, coffees, alcohols, which we of course invite you to discover with us.

Anne-Sophie Pic's travels have the sole purpose of satisfying her curiosity, then your palate.
